Cameras, grocery tax, animal control discussed

Concerns about surveillance cameras, as well as a proposed grocery tax and recent added pressure on the animal control program were discussed at last week’s regular meeting of the Union County Board of Commissioners. The meeting was Friday morning, Aug. 28, at the Union County Courthouse in Jonesboro.

A community member in attendance at Friday’s meeting shared his concerns about Flock Safety surveillance cameras in the county. Installation of such cameras had been proposed by Union County Sheriff David Wilkins and approved by the board. The cameras are the focus of concerns at this time throughout the country. Concerns have been focusing on abuse of the systems and privacy issues.

County board chairman Max Miller thanked the community member for sharing his concerns, which addressed surveillance and privacy. The community member said he anticipates that more people will be sharing their concerns about the cameras.

In other business at Friday’s meeting, the board tabled action on a proposed ordinance which would impose a county grocery retailer’s occupation tax and service occupation tax.

Aproposed 1 percent county grocery tax would apply only to businesses located in unincorporated areas of Union County (areas outside of incorporated municipalities). The county tax is a direct local replacement for a 1 percent statewide grocery tax that was phased out by the State of Illinois in January of this year. Local municipalities are levying the tax.

The tax does not apply to restaurants or to food prepared for immediate consumption. As an example, gallon of milk, a loaf of bread or a bag of chips purchased from a grocery store or gas station outside of municipal limits will be included. Items not affected include hot foods, made to order sandwiches, candy and fountain drinks.

The tax only impacts establishments outside of city limits on standard groceries. This tax already was being collected by the state. The state simply eliminated it at its level and shifted the authority to the county level.

Board chairman Miller asked that action on ordinance be tabled so all of the commissioners could review and think about the proposed tax. At this time, it is anticipated that the tax would generate a minimal amount of revenue for the county.

Board vice chairman Kent Pitts reported that in recent weeks, there has been a big increase in the number of dogs at the Union County animal control shelter. Pitts said the situation was challenging enough that he had taken two dogs home himself to provide foster care for them.

Apples ripen for early picking season in southern Illinois

By RHIANNON BRANCH
FarmWeek

Apples are ready for picking at some Illinois orchards, marking an early harvest.

“Due to the early bloom and warm temperatures this summer, harvest is running at least several days to a week earlier than most years,” Molly Christ with Christ Orchard in Elmwood told FarmWeek.

They began picking the first of more than 60 varieties of apples in late July and will offer U-pick apples later this month.

“Despite the close calls we had this spring with the freezing temperatures, we still have a bumper crop of

apples,” Christ said. “A few apples have frost rings, or rough patches on the skin. This is a type of russetting that does not affect the flesh or taste.”

Apple varieties are also maturing about 10 days ahead of schedule at Liberty Apple Orchard in Edwardsville. Owner Stephen Miller said the early bloom in late March was a driving factor.

“The only other year with a bloom in late March was back in 2012 and then it was followed by a deep freeze in April that just decimated the apple crop here in Illinois,” Miller recalled. “Fortunately, this year we had an early bloom, but we also had a

fairly warm April, so we didn’t have that problem.”

Most of their varieties look plentiful with good quality, especially the Honeycrisps.

“The trees are loaded with Honeycrisp. It looks gorgeous. They have a lot of color and a lot of sizing that we haven’t seen in the last couple of years, so we’re very optimistic that there’ll be a good season,” he said.

Miller calls himself an “encore-preneur” having planted his first apple trees in 2008 after retiring from his career. Now he has about 1,000 trees growing 21 different varieties for people to pick. Liberty Apple Orchard also sells

at three farmer’s markets in southwestern Illinois and eastern Missouri.

“I think this could be the best year we have ever had for apples,” Miller said. “Last year was a very good year for us, but this year looks very promising.”

Around 545 farms grow more than 2,200 acres of apples in Illinois each year, according to the 2022 Census of Agriculture.

Alice Elizabeth (Joiner) Kerns

Alice Elizabeth (Joiner) Kerns, 83, of Anna passed away peacefully on June 8, 2026, at Stillwater Senior Living in Edwardsville, following a courageous journey with Alzheimer’s. She leaves behind a lifetime of quiet strength, deep connections, and cherished memories that will continue to be shared for generations.

Born on March 25, 1943, in Anna, Alice was the daughter of Albert and Elizabeth “Betty” Joiner, a beginning that grounded her in the community she would proudly call home for most of her life. A fun fact is that Alice lived most of her life on Spring Street, notably at 510 Walton, a place where everyone was welcomed and enjoyed spending time.

Alice attended Anna-Jonesboro Community High School and Southern Illinois University at Carbondale, and dedicated 36 years to Choate Mental Health and Development Center in Human Resources prior to her retirement. Known for her steady presence and thoughtful nature, she had a way of connecting with people that made others feel comfortable, supported, and truly seen.

Her life was deeply rooted in faith and community. As an 80-year member of Mt. Moriah Lutheran Church, Alice’s commitment was a true reflection of the values she carried every day. She also built lifelong friendships as a member of Delta Theta Tau sorority.

Alice gave generously of herself to her community. She served as a long-time member of the Board of Trustees and a dedicated “Friend of the Library” at Stinson Memorial Public Library, supporting a place that brought people together and fostered a love of reading. She also enjoyed coffee and conversation with her beloved “Coffee Crew,” a simple ritual that reflected how much she valued connection and friendship.

While Anna was always home, Alice embraced opportunities to explore the world. She cherished traveling with her family and friends, creating lasting memories across Mexico, France, Portugal, Hong Kong, Hawaii, the Caribbean, and

locations across the U.S. One of her favorite destinations was Colorado, spending time in the mountains with her daughter Allison and family.

Alice had a gentle but unmistakable presence. She didn’t seek attention, but she showed up—consistently, thoughtfully, and with a kindness that made a lasting impression. She believed deeply in the importance of connection and in the small gestures that make life meaningful.

She is lovingly remembered by her daughter, Allison (John) Livesay McDougall of Louisville, Colo.; her son, Brent (Dana) Kerns of Edwardsville; and her grandchildren Aspen and Margaret McDougall, and Brayden and Cameron Kerns who brought her immense pride and happiness.

She loved watching her grandchildren participating in the sports they love whether at the baseball field, on the golf course, or at gymnastics meets. Her grandchildren will also remember “Nana” for the practical life lessons she taught them: how to swim, how to count back change, and how to write a proper thank you note.

Alice is also survived by her sister-in-law Sue Joiner and uncle Dr. Luis Lau, along with special friends from church, the “Birthday Club” and Bridge Club, extended family members and neighbors.

Alice was preceded in death by her parents; her son, Joseph Cardwell Livesay; her aunt Mathilda (“Tillie”) Lau, and her brothers, Edwin (“Pete”) Joiner and Cardwell Joiner.

A memorial service will be held at 10 a.m. Saturday, Sept. 5, 2026, at Mt. Moriah Lutheran Church in Anna. A luncheon will immediately follow at the St. Mary’s Church Parish Hall. All are invited to attend and celebrate Alice’s life.

The family encourages those who wish to honor Alice’s memory to consider a donation to Stinson Memorial Public Library (Donate – Stinson Memorial Public Library District) or Mt. Moriah Lutheran Church. Be sure to indicate “Alice Kerns Memorial.” Donations made by Sept. 30 will be matched by the family.

In remembering Alice, those who knew and loved her will carry forward the many ways she lived so well: showing up for others, valuing connection, giving back to her community — and savoring both life’s great adventures and its quiet moments, whether over dinner with friends or a nature walk in the mountains. Her legacy will live on in these moments, passed forward with love. The family extends their heartfelt gratitude to the staff at Stillwater Senior Living for their unwavering care, compassion and support.

My calendar says I stay too busy ... so does my body and it's getting tired of it. I had a couple of days when it demanded its rest and the lady that never naps (me) has been napping nearly every day. I get home from work, shopping or appointments and have to take a nap before I can do anything else. It's annoying, not to mention it really messes up my nighttime sleep. I find myself awake an hour or two before I need to be or, worse yet, I can't get to sleep until nearly 1:00 a.m. I wish I could say it made me more productive, but that isn't the case either. I'm going to blame a lot of it on the heat ... and we'll leave my age out of it.

I had an interesting trip to Cape Girardeau on Friday. As I enjoyed my ride through the countryside on County Line Road, and just as I reached Mowery Valley Lane, a bobcat jumped out in front of me. It was really large. It jumped from the brush line behind the Runion's house and landed in the middle of the road and then disappeared into the field on the opposite side of the road. That's my first actual sighting of one. I've heard tales, seen wolves

COUNTY LINE NEWS

BY SUZAN HARVEL

and coyotes, heard sounds when I was younger that scared me into going indoors, but seeing is believing. I'm glad I wasn't going fast or we'd have met in a more disastrous manner. My grandmother, Agnes Smiddy, swore they were back in those hills and hollows, and she was right.

I also happened upon three BLACK wooly worms. The signs of a bad winter to come keep showing up, maybe. The black and brown bands in the middle or lack thereof are supposed to be signs. I didn't get out and inspect them so I don't know for sure, but the one I saw last week was really black. As with most things weather related, we'll just have to wait and see. But, in the meantime, I might consider stocking up on rock salt when it comes out, as we had a hard time getting it last year.

My thanks to the many who mowed the sides of Route 127 this past week. Having had two deer jump out of those tall weeds in the last couple of weeks, made me very nervous.

I know it's been hotter than a skillet left on high, and then we get those showers that turn everything into a sauna. It's rough work and we don't give our highway crews enough credit. Thanks, one and all!

Brother Bobby Richardson led the congregation of Mill Creek Baptist from Acts 16. He asked us to answer the questions: Are we growing in Christ? and Have you surrendered it all to God? If not, what's holding you back? When we stall in our faith we become prisoners. Be it from fear, anger, jealousy, ignorance, grief, depression or unforgiveness it keeps us from

being where God wants us to be. We need to “Let go, and Let God.” He is the only answer that makes sense. When we get into the low points of life, we need to be like Paul and Silas and sing out loud to our Lord ... he'll hear you.

1 Timothy 6

6.1 All who are under the yoke of slavery should consider their masters worthy of full respect, so that God's name and our teaching may not be slandered. 2 Those who have believing masters should not show them disrespect just because they are fellow believers. Instead, they should serve them even better because their masters are dear to them as fellow believers and are devoted to the welfare[1] of their slaves. These are the things you are to teach and insist on.

Godliness with Contentment

3 If anyone teaches otherwise and does not agree to the sound instruction of our Lord Jesus Christ and to godly teaching, 4 they are conceited and understand nothing. They have an unhealthy interest in controversies and quarrels about words that result in envy, strife, malicious talk, evil suspicions 5 and constant friction between people of corrupt mind, who have been robbed of the truth and who think that godliness is a means to financial gain.

6 But godliness with contentment is great gain. 7 For we brought nothing into the world, and we can take nothing out of it. 8 But if we have food and clothing, we will be content with that. 9 Those who want to get rich fall into temptation and a trap and into many foolish and harmful desires that plunge people into ruin and destruction. 10 For the love of money is a root of all kinds of evil. Some people, eager for money, have wandered from the faith and pierced themselves with many griefs.

The Good Fight of Faith

11 But you, man of God, flee from all this, and pursue righteousness, godliness, faith, love, endurance and gentleness. 12 Fight the good fight of the faith. Take hold of the eternal life to which you were called when you made your good confession in the presence of many witnesses.

13 In the sight of God, who gives life to everything, and of Christ Jesus, who while testifying before Pontius Pilate made the good confession, I charge you 14 to keep this command without spot or blame until the appearing of our Lord Jesus Christ, 15 which God will bring about in his own time-God, the blessed and only Ruler, the King of kings and Lord of lords, 16 who alone is immortal and who lives in unapproachable light, whom no one has seen or can see. To him be honor and might forever. Amen. 17 Command those who are rich in this present world not to be arrogant nor to put their hope in wealth, which is so uncertain, but to put their hope in God, who richly provides us with everything for our enjoyment. 18 Command them to do good, to be rich in good deeds, and to be generous and willing to share. 19 In this way they will lay up treasure for themselves as a firm foundation for the coming age, so that they may take hold of the life that is truly life. 20 Timothy, guard what has been entrusted to your care. Turn away from godless chatter and the opposing ideas of what is falsely called knowledge, 21 which some have professed and in so doing have departed from the faith. Grace be with you all.

**LEGAL NOTICE TO ALEXANDER COUNTY TAXPAYERS:
LIST OF ASSESSMENT CHANGES FOR 2025
Valuation Date (35ILCS 200/9-95): January 1, 2025
Required level of assessment (35 ILCS 200/9-145): 33.33%
Median Level of Assessments for the County: 31.34%
Valuation based on sales from (35 ILCS 200/1-155): 2022, 2023, 2024**

Publication is hereby made for equalized assessed valuations for real property in this County in accordance with 35 ILCS 200/12-10. As required by 35 ILCS 200/9-210 and 35 ILCS 200/10-115, the following equalization factor has been applied to bring the assessments to the statutorily required three-year median level of 33.33%:

The following equalization factor has been applied to all values except those not subject to equalization due to assessment under the provisions of 35 ILCS 200 Sections 10-110 through 10-140 (farmland and farm buildings), 10-155 (Open Space Land), 10-170 through 10-200 (Coal) and 10-725 (Commercial Solar):

The equalization factor needed for the 2025 assessments is 1.0635, and it is being applied to all Townships within the County, and being applied to all property classes with the exceptions mentioned above as well as excepting out all Industrial properties within the County.

Pursuant to 35 ILCS 200/10-115, the Farm Land assessments for the 2025 assessment year will increase by 10% of the preceding year’s median cropped soil productivity index as certified by the Illinois Department of Revenue with data provided by the Farmland Assessment Technical Advisory Board resulting in a \$51.56 per acre increase for each soil productivity index.

Property in this County, other than farmland, commercial solar, and coal, is to be assessed at a 33.33% median level of assessment, based on the fair cash value of the property. You may check the accuracy of your assessment by dividing your assessment by the median level of assessment. The resulting value should equal the estimated fair cash value of your property. If the resulting value is greater than the estimated fair cash value of your property, you may be over-assessed. If the resulting value is less than the fair cash value of your property, you may be under-assessed. You may appeal your assessment to the Board of Review.

If you believe your property’s fair cash value is incorrect or that the equalized valuation is not uniform with other comparable properties in the same neighborhood, the following steps should be taken:

1. Contact your CCAO or Supervisor of Assessment’s Office to review the assessment.
2. If not satisfied with the assessor’s review, taxpayers may file a complaint with the Alexander County Board of Review. For complaint forms, instructions, and the Rules and Procedures of the Board of Review, call 618-734-7011 for more information.
3. The final filing deadline is 30 days from the date of publication. After this date, the Board of Review is prohibited by law (35 ILCS 200/16-55) from accepting assessment complaints for properties in this assessment year. For more information on complaint deadlines, call 618-734-7011.

Your property tax will be calculated as follows: Final equalized Assessed Value – Exemptions = Taxable Assessment (Taxable Assessment X Tax Rate = Total Tax Bill. The Tax Rate is determined by the amount the taxing bodies levy in your taxing districts.

All equalized assessed valuations are subject to further equalization and revision by the Alexander County Board of Review as well as equalization and revision by the Illinois Department of Revenue.

Owner Occupied properties may be eligible for various homestead exemptions as provided for in Section 15-165 through Section 15-175 and Section 15-180 of the Property Tax Code. Contact the Alexander County Supervisor of Assessment’s Office at the number and address listed below for more information on these exemptions.

No assessment of Real Estate shall be considered as invalid because such assessment was not correctly listed or because such assessment was not in the name of the true owner(s) thereof, as provided in Article 14 of the Property Tax Code (35 ILCS200/12-10).

Please address any questions about these valuations and/or exemptions to:

Looking into the eyes of a goat...

Would it be a bad omen if a large group of vultures were seen congregating in the bare branches of a tree standing across the street from a local government building? Just wondering ...

Meanwhile ...

Before we get to the good stuff, your writer paused for a bit of a break and listened to the “Lake Shore Drive” song by Aliotta, Haynes and Jeremiah. Another great tune from back in the day. If you not familiar with the song, you can find it on the internet ... of course you can ... on YouTube. I think I was listener number 7 million ... give or take a few ...

Lake Shore Drive, as you may know, is in Chicago, that big ol’ city just north of Lick Creek. For whatever it might be worth, this writer’s one experience with Lake Shore Drive involved not paying close attention to traffic signals and turning left in front of approximately 40 lanes of traffic. I had not driven much in Chicago, which has a whole lot of traffic ... though probably not as much as what we see at the four-way stop in downtown Anna. Anyway, motoring on Lake Shore Drive is a special memory. And the song is special, too.

Meanwhile ...

Myriad Critter Sightings, including some bears, highlighted The Journey Through Life as the month of August headed to the finish line.

Hard to believe that September has started ... and that Labor Day is right around the corner. Pretty soon we will be seeing Halloween decorations (if we haven’t already), making plans for Thanksgiving and seeing Christmas commercials. Actually, a week or two ago, when we were still in August, I saw a commercial on television that was vaguely connected to Christmas. Really. Can’t remember what the product was ...

Labor Day “officially” marks the end of summer. Don’t know about you, but yours truly is not going to be sad to see summer go ... And it’s good to know we were going to have another heat wave this week.

Meanwhile ...

Until a visit to this year’s Union County Fair in Anna, I had never really given a great deal of thought to a goat’s eyes. Going eyeball to eyeball with a goat was just something

Goats were among the many Critters spotted at this year’s Union County Fair in Anna. This goat was kind enough to strike a nice pose for a photo.

This Critter spotted at the Union County Fair might have been a frog. Or not.

I had not done. My outlook on a goat’s eyeballs changed after I took a closer look at the eyes of a goat I met at the fair. We were not formally introduced, but the critter was kind enough to pose for a couple of photographs.

Seems that goats have rectangular pupils in their eyeballs. Did not know that. A few moments of intense research on the internet led to an article headlined: “Why goats have really weird rectangular pupils.” The article appeared on a website for ZME Science. As far as I know, the article was not generated by artificial intelligence. At least the goat I saw at the fair was real.

The article reported that researchers at two universities looked into the shapes of pupils in the eyeballs of 214 species of critters which get their feet into the dirt on dry land. The article said

that what the researchers eventually found “was that pupil shape is linked to the ecological niche or role of the animal. The general pattern they’ve found is that predators generally have vertical slit pupils because these help them judge distance better, making it easier to pounce on prey. Meanwhile, herbivores – which are the target of carnivores – have rectangular slit pupils as a line of defense, offering them a broader field of vision ... These enable a panoramic vision that can detect intruders approaching from various directions ... Their rectangular pupils create a wide-angle view, allowing them to spot potential dangers lurking on either side without needing to turn their heads ... With their remarkable peripheral vision, goats can swiftly identify predators, evade ambushes, and ensure their survival in the face of

constant danger.”

I am going to assume that the goats, or any of many other critters at the fair, did not face any danger during the time they spent at the Anna City Park, which is the home of the fair. Unless ... you take into consideration the bears. Yes. Once again this year, bears were spotted on the carnival midway at the fair. They seemed to be rather docile.

Other critters spotted at this year’s fair included dogs, a turtle, sheep, goats, horses, cattle, pigs and one critter that might have been a frog. It was kind of hard to tell. It did not have goat eyes, though. My fond memories of pig behavior were rekindled while watching some of them during the junior livestock auction. Those memories included at least one pig which did not want a photographer taking its picture. That attitude appeared to repeat itself at this year’s fair. Oh ... I did not get to look any pigs in the eye. That would have involved getting really close to a pig, which might not have been such a good thing.

Truth be told, I enjoyed going to the fair. After all, it’s part of The Journey Through Life here in Union County. Lots of folks were there during the times I wandered through the fair grounds. Everyone seemed to be grateful for the fairly nice weather we had at the end of August. And, as always, it was good to check out the many displays in the Exhibition Building. I was especially glad to see that young people continue to participate in the fair.

Another recent Critter Sighting, not at the fair, involved two egrets at a pond not far from metropolitan Anna. The two birds looked to be having a dinner date which involved seafood ... or at least pond food. They did not seem to mind having their picture taken ... but they were keeping their distance.

Meanwhile ...

Did you happen to watch the lunar eclipse during the night of August 27-28? A clear sky and mild temperatures made for some nice viewing. Even the mosquitoes seemed to stay away while I sat outside in the dark for a couple of hours. The eclipse even happened at a fairly reasonable hour of the night.

That wraps up things for this week. Think I’ll work on my Christmas shopping list ...

2026: first human case of West Nile virus reported in Illinois

The Illinois Department of Public Health, IDPH, reported Aug. 26 that it had confirmed the first human case of West Nile virus in Illinois for 2026. The confirmed case involves a resident of Piatt County. Piatt County is in Central Illinois. In addition, IDPH reported that it had identified three other probable human cases of West Nile virus from Northern Illinois.

About one in five people who contract the disease caused by a bite from an infected mosquito may develop common symptoms, including fever, headache, body aches, joint pain or other potentially serious complications.

As of late August, West

Nile virus had been observed in 50 Illinois counties with either a mosquito pool, horse and/or human from that county testing positive for the virus. The full list of counties where West Nile virus has been detected in mosquito batches can be found at West Nile Virus in Illinois-Surveillance. No cases involving detection of the virus in Union County had been reported.

In 2025, West Nile virus was found in 73 Illinois counties. There was a total of 150 human cases, with 10 deaths linked to the virus.

“For many Illinois residents, summer means lots of time spent outdoors enjoying everything our state has to offer,” IDPH director

Dr. Sameer Vohra said in a news release. “Before heading outside, it’s important to take steps to protect yourself and loved ones from mosquito bites and the illnesses they can spread. Applying insect repellent, wearing long, loose clothing and reporting stagnant water to your local health department can help lower the risk of contracting diseases like West Nile Virus.”

IDPH urges the public to “Fight the Bite” by practicing the three “R’s”: reduce, repel and report.

Monitoring for West Nile virus in Illinois includes tests for mosquito batches, as well as testing sick horses and humans with West Nile virus-like symptoms. West Nile

virus is transmitted through the bite of a Culex mosquito, commonly called a house mosquito, that has picked up the virus by feeding on an infected bird.

Common symptoms include fever, nausea, headache and muscle aches. Symptoms may last from a few days to a few weeks. Most people infected with West Nile virus will not show any symptoms; however, in rare cases it can lead to severe illness including paralysis, meningitis or encephalitis (brain and nerve infections) or even death.

People older than 60 and those with weakened immune systems are at highest risk for severe illness.

Giant City State Park to celebrate 100 years

Giant City State Park in southern Illinois will celebrate its 100th anniversary as an Illinois state park in 2027. The Illinois Department of Natural Resources, IDNR, is inviting the public to share their favorite memories of the park for a yearlong visitor center display.

“Giant City has been a special place for generations of Illinoisans, and we want to hear the stories that make this park meaningful to our visitors,” said Jennifer Randolph-Bollinger, natural resources coordinator for Giant City State Park, in news release.

People can submit stories about Giant City, including funny anecdotes, significant life events or favorite memories. Stories should be no more than 100 words

and should include a copy of an original photograph. Submitted stories and photographs will be featured in a yearlong display at the Giant City State Park visitors center throughout 2027.
